Specialized Programmes for Schools and Youth

Through our links with Aotea Community Trust as a registered accredited Private Training Provider. We are accredited to train and **assess unit standards** from the NZQA national framework. A specialized course can be designed for your group for such needs.

Schools and groups may request something different such as a **journey**, or course with a **special theme**. We are able to explore with you what is possible and cost it accordingly.

Similarly, the school or group may already have challenges such as **physical disabilities; special needs** or be considered "**at risk**". We have a long association with designing programmes to suit such groups.

Transport

Can be arranged at competitive prices

Catering

Great meals provided (excluding first day lunch) as part of the programme including fresh fruit.

Please inform us of any special dietary requirements when you book.
